

CHOCK BLOCK WEAR STRIPS

Chock up your wear protection

CHOCK BLOCK IS A QUICK AND EASY WAY TO ARMOR-UP YOUR BUCKETS & IS AVAILABLE IN VARIOUS SHAPES & SIZES TO SUIT DIFFERENT APPLICATIONS

- Chock Block is a combination of extremely hard alloy casting, bonded to a mild steel backing in the form of laminate
- This has an extreme hardness of 700HB which is a perfect solution for high wear areas where there are continuous abrasive effects from material flow and impact
- Chock Blocks are suitable for all types of bucket protection and applications including side styles, side cutters, lip protectors, adapter caps, cutting edge ends, bucket sides and on the leading edge of ripper shanks
- Easy to weld with its mild steel backing plate
