Where the Rubber hits the road!

Our TerraTrack range has been designed and manufactured to deliver optimum performance. These suit more than two thousand models of Excavators.

This includes Skid Steer Loaders, powered Track Barrows, Tracked Dumpers, and other tracked equipment. Our range has been developed to offer superior quality and fitting, and comes with an extended manufacturer warranty.

We work directly with the manufacturer without involving agents or trading companies, ensuring we can offer unrivaled 'dollars per hour value' within the market place. With more than 200 different sizes in stock, we are well placed to keep your machine moving.

- **Highest natural rubber content in New Zealand**
- **New Zealand's only interlocking iron core with up to 112.5kn of bend strength**
- **The most extensive warranty in NZ**

TerraTrack

**24 MONTH
WARRANTY**

**INTERLOCKING

SKIDSTEER LOADER

We stock New Zealand's only aftermarket Skidsteer tracks with continuous steel cording, all other tracks are either Kevlar or nylon based.

The new technology of steel cording for Skidsteer tracks has been tried and tested throughout NZ and Australia where operators are reporting OEM levels of performance at significantly less cost.

DUMPER RUBBER

Our high-tech natural rubber compound contains a minimum of 75% natural rubber and are supplied up to 900mm wide. Natural rubber is more dense and flexible than the cheaper and more commonly used synthetic and recycled alternatives.

This improves the wear life for machines that get everything our rugged and diverse country terrain can throw at them.

RUBBER TRACKS WARRANTY

EXCAVATOR RUBBER

Experience next generation rubber technology with interlocking core bars preventing stretch and detracking. The highest natural rubber content, and offset anti vibration track patterns all reducing wear and tear on your machine and maximising track life. With the most extensive warranty in NZ our rubber tracks deliver serious peace of mind. Supported by the largest stock availability in NZ, and outstanding customer service!

TerraTrack

Warranty
24 month

CTL RUBBER (COMPACT TRACK LOADER – SPROCKET DRIVE)

The full range of our Heavy-Duty Sprocket drive Skidsteer tracks have the next generation rubber compound, track-guard iron core with high-tensile steel cables to ensure no premature failure and are stocked across both islands.

TerraTrack

Warranty
24 month

MTL RUBBER (MULTI-TERRAIN LOADER – LUG DRIVE)

Skidsteer 'Lug Drive' machines are extremely severe on rubber tracks – we meet the risk of premature wear head on as New Zealand's only supplier with continuous steel cording in both our TerraTrack range. With traditional Kevlar or Nylon based corded type tracks on the market you can only expect to get 500 hours use. Our new technology of steel cording has been tried and tested and deliver OEM levels of performance at significantly less cost.

TerraTrack

Warranty
24 month

RUBBER TRACKS WARRANTY

DUMPER RUBBER

Don't get caught with downtime on these expensive machines! Enquire about our 'Advanced Plan 365' indent service giving you peace of mind that we will always have a spare track in stock for your machine removing any risk of downtime. We guarantee you latest design and high performing rubber on call for when you need it.

TerraTrack

Warranty
24 month

BOLT-ON PADS

Bolt-on pads are very popular for Excavators which have bolt holes pre-drilled in the steel Track Shoes. These are available for all machines from 3-25 Tonne. We can also offer our OEM-quality DuraLine Plus brand in the bolt-on style.

DuraLine

Warranty
6 Months

DuraLine+

DURALINE Warranty
12 Months

CHAIN-ON PADS

These pads are different from other types in that they are bolted directly on to the Track Chain using track bolts in the same way that a steel Track Shoe would be bolted on. Available only in our Malaysian-made DuraLine Plus brand.

DuraLine

Warranty
6 Months

DuraLine+

DURALINE Warranty
12 Months

CLIP-ON PADS

Clip-on type Rubber pads are available for use when you do not have pre-drilled bolt holes in your steel pads. These versatile pads are available for a wide range of different machines from 2-45 Tonne.

DuraLine

Warranty
6 Months

DuraLine+

DURALINE Warranty
12 Months

**EXTENDING RUBBER PAD LIFE WITH A
BREAKTHROUGH RUBBER COMPOUND
OUR BOLT-ON PADS OFFER A DURABLE
SOLUTION FOR FINISHED SURFACES
GIVING YOU:**

- Consistent wear and long service life
- Secured with 4 bolts for a tight, movement-free fit
- Converts steel tracks to rubber for semi-permanent use
- Abrasion-resistant, anti-chunking rubber compound
- Available in 400–600mm widths
- Fits 4–26 tonne excavators

***DuraLine*+**

**SUITS
MACHINES**

**3-15
TONNE**

A RANGE OF TOUGH RUBBER PADS ARE AVAILABLE FOR MOST MODELS OF EXCAVATORS & OTHER TRACKED MACHINES FROM 5-30 TONNE

Our Heavy Duty Rubber Pads are designed and engineered to fit most triple bar Track Shoes and consist of a thick, anti-wear rubber pad, bonded to a forged steel core.

Track Pads are made to fit onto most 3 Bar steel Track Shoes and come in Bolt-on and Clip-on types, depending if your existing steel Shoes have pre-drilled bolt holes in them or not.

Rubber Pads are available to suit a wide range of machines including Excavators, Dozers, drilling machines, profiling and paving machines.

Our rubber pad technology pairs flexibility with genuine strength to reduce wear and tear and optimise long service life.

Advantages of using Rubber pads are;

- Protection of road/concrete surfaces
- Easily installed & removed on-site
- Increased traction on hard/wet surfaces
- Reduced noise & vibration
- Reduction in overall downtime
- Better machine stability

Bolt-on Rubber Pads

Clip-on Rubber Pads

BOLT-ON RUBBER PADS

- Bolt-On Rubber Pads are designed and manufactured to fit to the existing steel Track Shoes on Excavators, profilers and drill equipment to alleviate surface damage that is caused by steel tracks
- Made from the highest quality Rubber compound for maximum wear life
- Easily bolted on or off your machine as required

BOLT ON STYLE

Enables the Rubber Pad to be bolted directly onto existing steel grouser plates for quick and easy installation.

HEAVY DUTY RUBBER COMPOUND

Provides greater strength and wear resistance in all types of applications and conditions. Reduces vibration and noise.

SOLID STEEL CORE

(optional)

A Heavy Duty 4mm steel core provides greater strength, minimal pad flex and delamination.

TREAD PATTERNS DESIGNED FOR IMPROVED TRACTION

Reduces surface damage and negative impact to the environment.

TECHNICAL SPECIFICATIONS					
Pad Width	Style	Core Bar	Rubber Compound	Pad Life	Warranty
230mm to 700mm	Bolt On	4mm Steel	Heavy Duty Natural & Synthetic Fibre Virgin Rubber	3 to 5yrs*	12mths

* Based on normal operating conditions of the equipment.

CLIP-ON RUBBER PADS

- Clip-On Rubber Pads are designed and manufactured to fit to the existing steel Track Shoes on Excavators, profilers and drill equipment to alleviate surface damage that is caused by steel Track Shoes
- Made from the highest quality Rubber compound for maximum wear life
- Easily fitted on or off your machine as required

TECHNICAL SPECIFICATIONS					
Pad Width	Style	Core Bar	Rubber Compound	Pad Life	Warranty
230mm to 800mm	Clip On	4mm Steel	Heavy Duty Natural & Synthetic Fibre Virgin Rubber	3 to 5yrs*	12mths

* Based on normal operating conditions of the equipment.
