

CRAWLER CRANE UNDERCARRIAGE PARTS

KEY CRANE CRAWLER COMPONENTS

Track Shoes: Durable steel segments that form the tread of the tracks, ensuring smooth movement and providing traction on various surfaces.

Track Rollers: Rollers that support the track shoes for smoother movement.

Sprocket and Idler Wheels: The drive sprockets at the front engage the tracks, propelling the crane forward or backward. The idler wheels at the rear maintain tension in the tracks.

Carrier Rollers: Additional rollers positioned along the underside of the tracks for further support and smoother travel.

SUPPORTED MANUFACTURERS

We supply undercarriage parts to all cranes (up to 800 T) manufactured by leading industry names:

- Hitachi
- IHI
- Kobelco
- Liebherr
- Sany
- Sennebogen
- Tadano
- Terex
